June 6, 2007

To Whom It May Concern:

On March 22, 2007, we had the pleasure of having Lorna Bracewell perform on our Texas A & M International campus. Our students enjoyed her company from the moment she arrived in Laredo, TX. She was very easy to work with, enthusiastic and gracious throughout her visit. Those great attributes were experienced before her show even started. Once Lorna strapped on the guitar and got started it was more of the same. She did a great job with having fun with the students and interacting with everyone there. Lorna made everyone feel comfortable with her music and her style. We received positive feedback from all students and faculty that attended the coffee house performance making it a success. She was very fun and professional after her set also as she made her CDs and other products available for purchase which worked out well also. We will definitely have Lorna back in the future because her entire experience here at TAMIU was a positive one. Thank you for making our event a success. I highly recommend Lorna to any campus who wants a fun, enthusiastic and successful event. She was a pleasure to host and I'm sure would provide the same to any campus she visits.

Sincerely,

Stan Pearson II
