Dear Lorna and Cliff:

Thanks for a tremendous concert! Lorna the audience fell in love with your performance. You are a great performer as a professional and have such a student-oriented personality. The combination is totally awesome, according to the Vernon Middle School Students.

Your personal history helped them to realize they could have a future as a writer, instrumentalists, or a performer. They connected from thoughts to journals and then verse into the creation of songs.

Thanks to both of you for inspiring our students to future success.

Sincerely,

Freida Cook
